

## Safety Tips & Warnings

The following recommendations should help to increase the life of the tool and also contribute to personal safety and better performance.

- When using any tool, protective glasses, shoes, helmet, gloves, and ear plugs should be worn.
- Always have a sure footing to give hammer proper support while operating and don't take chances.
- Never use air tools for prying during use. If tool is being used properly, this action is not necessary.
- Never use dull tools as they will accomplish very little and could break from fatigue.
- Proper reconditioning procedures should be followed to prevent premature breakage.
- Hammer parts should always be kept in good repair. Worn bushings and pistons cause excessive shank wear on tools.
- Warm tools prior to use when temperature is below freezing.

## Limited Warranty

**STEEL TOOLS** Champion Chisel Works tools are warranted against defects in material and workmanship. Adjustments will be made on any tool which does not perform to your satisfaction, provided it has been used correctly during operation. No other warranty is implied or expressed in this catalog. Tools should be used for the purpose they were designed. Pneumatic and electric steel tools are designed and heat treated for use only in air and electric tool applications.

**AIR TOOLS** Champion Chisel Works tools are warranted against defects in material and workmanship for 180 days from date of purchase. Warranty applies only to new tools purchased through Champion Chisel Works. It does not cover any tool that may have been abused or misused during operation. It does not cover normal wear and tear or air tools that are repaired or modified by anyone other than a representative of Champion Chisel Works. Air Tools must be operated at 90 PSI to receive coverage of this warranty. No other warranty is implied or expressed in this catalog.

If an air tool is found to be defective within 180 days of purchase, please contact Champion Chisel Works to receive an RMA number and instructions for returning the tool to Champion Chisel Works for inspection.
